

Greetings IAH Members ...

No, that's not a community uprising...it's just a friendly IAH croquet game.

It is a sign of spring as is our Battery Brigade. Our volunteers are ready to climb tall ladders, risking their lives to change your smoke alarm batteries. Click on the IAH Battery Brigade logo and sign up for an appointment.

**BROS
&
BREWS**

Another sign of spring is the return of Bros & Brews this Thursday at a new location...The Nauti Monkey!

***Join us this Tuesday for a celebration
of art and conservation***

***Birdwatching...The Art & Conservation Exhibit
by Garden & Gun Magazine***

Join us to see this creative and beautiful exhibit that is moveable feast for the eyes. This three part exhibit goes from the Garden & Gun offices at the Cigar Factory to the Joseph Manigault House, and ends up at the Dewberry Hotel.

It is an immersive experience that takes viewers on a journey, combining extinct birds, modern bird art and real specimens of birds in an innovative and creative exhibition. We are lucky to be having the show curator share the whole story of putting this enormous exhibit together.

3:00pm Meet at the Gun & Garden offices at 701 E. Bay St. #115 to see works about extinct birds.

3:30pm Drive to Manigault House 350 Meeting St, for a private tour focusing on the birds by the curator.

4:30 Walk two blocks to the Dewberry Hotel to see a giant paper sculpture of a North American Wood Stork and get cocktails inspired by various Southeastern birds.

Space is very limited. Event fee - \$18. Car pooling is available.
