

Greetings IAH Members:

Forecasters at NOAA's [Climate Prediction Center](#) are predicting above-average hurricane activity this year – which would make it the seventh consecutive above-average hurricane season. NOAA's outlook for the 2022 Atlantic hurricane season, which extends from June 1 to November 30, predicts a 65% chance of an above-normal season, a 25% chance of a near-normal season and a 10% chance of a below-normal season.

NOAA is forecasting several named storms (winds of 39 mph or higher), several hurricanes (winds of 74 mph or higher) and a few major hurricanes (winds of 111 mph or higher). NOAA provides these statistics with a 70% confidence level.
