

***It's that time of year  
again!***

*A community of friends enjoying enriched, vibrant and independent lives together*

### **Greetings IAH Members:**

*NOAA forecasters increase Atlantic hurricane season prediction to 'above normal.'  
Likelihood of greater activity rises due to record-warm sea surface temperatures.*

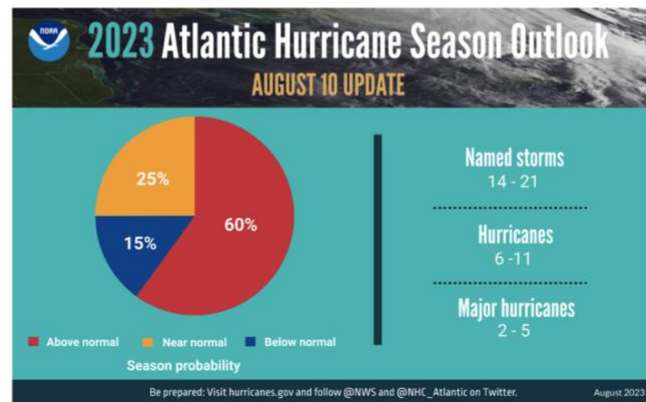

**National Oceanic and  
Atmospheric Administration**  
U.S. Department of Commerce

*Scientists at NOAA's [Climate Prediction Center](#) have increased their prediction for the ongoing 2023 Atlantic hurricane season from a near-normal level of activity to an above-normal level of activity. Forecasters believe that current ocean and atmospheric conditions, such as record-warm Atlantic sea surface temperatures, are likely to counterbalance the usually limiting atmospheric conditions associated with the ongoing El Nino event.*

NOAA forecasters have increased the likelihood of an above-normal Atlantic hurricane season to 60%.

NOAA's update to the 2023 outlook – which covers the entire six-month hurricane season that ends on Nov. 30 – calls for 14-21 named storms (winds of 39 mph or greater), of which 6-11 could become hurricanes (winds of 74 mph or greater). Of those, 2-5 could become major hurricanes (winds of 111 mph or greater). NOAA provides these ranges with a 70% confidence.

*So what does this exciting weather news mean to us hurricane veterans? Always the same answer...Be Prepared!*

*Get your act together by reviewing a Hurricane Preparedness Plan. Here's a great one called Ready from the US Government.*

*It's a one stop digital toolkit containing a library of ready-to-use social media posts, graphics and video links that promote life-saving information about how individuals and families can prepare for and survive during a hurricane. Get it here:*

*<https://www.ready.gov/hurricane-toolkit>*

*Get a good weather App for your phone. There are many reliable, free apps out there like these:*

*Storm Radar: Weather Tracker 4+*

*The Weather Channel Interactive / Weather Radar & NOAA Alerts*

*AccuWeather*

*Storm Team 2 - a local Tv app*

*Finally, keep in touch with your IAH friends and see how we can help each other if weather turns bad.*

*Be safe my friends!*
